17.20/17.30

Q&A and closure

The Final Conference of the
H2020 MAKSWELL Project
will take place as a
fully virtual event.

Focus will be on the most relevant results of the three-year research activity carried out by the MAKSWELL's partners. The use of new data sources and statistical methodologies for improving the measurement frameworks for well-being and sustainability will be presented and the way forward to deepen their role in policy-making processes.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 770643
